EUROPE PEACE HOPES GAIN

Each Hour In Delay Of Hitler Reply Viewed As Gain For France, Britain

By JOE ALEX MORRIS
U. P. Foreign News Editor

Great Britain and France clung to the offensive today in a diplomatic drive to win Europe's war of nerves.

Still hoping to stall off a military conflict, the two big powers had firmly told Adolf Hitler that his quarrel with Poland must be settled peaceably and equitably and—ready to fight if the Fuehrer so chooses—they waited long past the scheduled time for a Nazi reply.

In the Berlin chancellery, Hitler labored over the message which may be the most momentous of his career.

The British government's message to the Fuehrer had been worded carefully in an effort to delay a sudden military showdown, to draw a reply from Hitler and to put the blame on the Nazis if war comes. Each hour that the Fuehrer delayed, each hour that he puzzled over his answer was considered a gain for the European security from leaders and for the prospects of peace.

BERLIN, (U.P.)—Adolf Hitler, in his new chancellery, worked today on one of the most important documents of his career—a reply to a message that the British Ambassador—

German Liner Held In Port

Immigration Officials Nab 17 As Customs Men Search Steamer Bremen

NEW YORK, (U.P.)—The German liner Bremen, held at its pier for an almost unprecedented search by government agents, was boarded by immigration officials who rounded up 17 passengers and took them to Ellis Island in taxicabs.

There was no immediate explanation for seizure of the passengers. Officials would not say whether they were incoming passengers whose credentials had not been approved. During the night several men boarded the ship but it could not be determined whether these were the ones taken to Ellis Island.

As immigration officials took off the passengers a crew of customs department men went aboard the Bremen and searched her holds and bunks. Police closely guarded the North German Lloyd line pier and armed coast guard and police boats lay in the stream near the giant liner.

LIONS TOLD OF LUMBERING

Thirty Per Cent Of County Cut Used In Wooden Boxes, Said

Placerville Lions received a close-up view of the lumbering industry at their luncheon Tuesday noon at Hotel Raffles when the entertainment committee for August presented Lion Swift Berry as the speaker of the day.

Other matters brought to the attention of the club included an announcement of the softball games at Marcus P. Bennett, Jr. Memorial Park this week, a report on the club's participation in the wheelbarrow derby at the recent county fair, and the announcement by Lion Roy Strum, attendance chairman, of a thirty-two week attendance contest, to start on September 18.

The Lions welcomed Lion Max Baer's return after an absence of several weeks and heard a short talk by Lion Dr. A. A. McKinnon on his recent trip to Alaska.

Lion Berry was presented by Lion Oden Hook, chairman of entertainment for August, and told the Lions that the present stand of merchantable timber in the county will last for from forty to fifty years at the present rate of cut.

He spoke of the reforestation practices which are being observed by the major lumbering operators and of their efforts to preserve as much of the young growth as possible.

Cutting approximately one hundred five million board feet a year in the county, the industry employs approximately sixteen hundred men who have an annual payroll of about one million eight hundred thousand dollars.

The value of the lumber products sold from the county in a year approximates three million dollars, two-thirds of which, Mr. Berry said, is either spent or banked in Placerville.

Approximately two thirds of the lumber cut in the county each year goes to the manufacture of Wooden Boxes and seventy-five per cent of was destroyed by fire near here.

REGISTRATION RULING MADE

"Temporary" Residents In County Ineligible To Vote Locally

SAN FRANCISCO—"Temporary" residents in any given county in California should register to vote at their permanent home and not at their place of temporary residence, according to an opinion on the subject by Attorney General Earl Warren.

The opinion was in response to an inquiry by District Attorney Vernon Stoll, of Nevada County and is as follows:

"I have before me your communication relative to right of persons to register and vote who are in transient relief camps where work is being done under the auspices of the WPA upon a local irrigation project. You state that you have examined Opinions Nos. 3933 and 9411 rendered by this office concerning CCC Camps and that it seems to you the rule therein set forth would apply in the instant case. I concur with you in the views so expressed.

"Under Section 1 of Article II of the State Constitution it is required that a person in order to vote be a resident of the State one year, of the county ninety days and of the precinct in which he desires (Turn to page 2)

Following the close of the County Fair Sunday night all surplus fresh fruit of that which was displayed, was taken over by the Fair and American Legion officials and sent to Fort Miley Veterans' hospital in San Francisco for distribution to patients.

The lot amounted to about fifty L. A. lugs consisting principally of two or three varieties of pears, with some plums and peaches, and was donated by growers and exhibitors for the worthy cause.

The shipment was made direct to Charley Farrington, the American Legion contact officer, stationed at the hospital. Also all surplus canned fruits and vegetables were given by exhibitors and will be kept here by the American Legion Auxiliary for distribution to needy veteran families during the coming winter months.

650,000 To See 1939 Showing Of State Fair

SACRAMENTO, (U.P.)—Preparations for staging the 85th annual California State Fair, Sept. 1 to 10 inclusive, neared completion today with officials predicting the big show would attract approximately 650,000 visitors to entertain its title as the nation's largest state fair.

The California Fair went into first place last year when the 10-day exhibition of the state's resources brought 637,582 persons through the turnstiles at the 220-acre fairground here. Secretary-Manager Robert Muckler said he expected this record would be topped at the forthcoming fair.

JOB INSURANCE CHECKS IN COUNTY FOR JULY TOTAL \$4,540.91

Unemployment compensation payments to eligible California workers dropped more than \$1,000,000 in July over the previous month, according to announcement by Ford Park, manager of the Placerville office of the State Department of Employment.

Heavy decreases in the insurance payments resulted from increased seasonal operations throughout the state, Park said.

In El Dorado county, the Department of Employment issued 406 checks during July, amounting to a total of \$4,540.91 compared with 597 checks for June, which amounted to \$6,548.99.

The number of checks issued in July of this year, 266,292, amounting to \$2,749,492, represented a slight increase over July, 1938. During that month, the total checks issued amounted to 250,103. Money distributed, however, increased \$398,608 for July of 1939 over July, 1938, when \$2,350,884 was paid in unemployment insurance checks.

There are three other "new" teachers, but they are not additions to the faculty, since they replace other teachers who have accepted assignments in other schools. In addition, a school nurse is to be employed, to divide her time between the high school and the Placerville Grammar School.

The little lady, who arrived on July 14th, has been named Robin Jene Kling, and, according to Grandma Gray, who returned from Berkeley two weeks ago, is getting along just fine.

The FARMERS CORNER

by RALPH H. TAYLOR

Executive Secretary
Agricultural Council
of California

California farmers, who met attempts of radical organizers and city labor bosses to usurp control of California's channels of production by organizing in their own defense, are soon to be investigated by the LaFollette civil liberties committee, according to news dispatches from the national capital.

With \$50,000 in additional federal funds placed at its disposal, the LaFollette committee plans to dig into the activities and records of the As-

sociated Farmers of California—for the asserted purpose of determining whether the organization infringed on civil liberties.

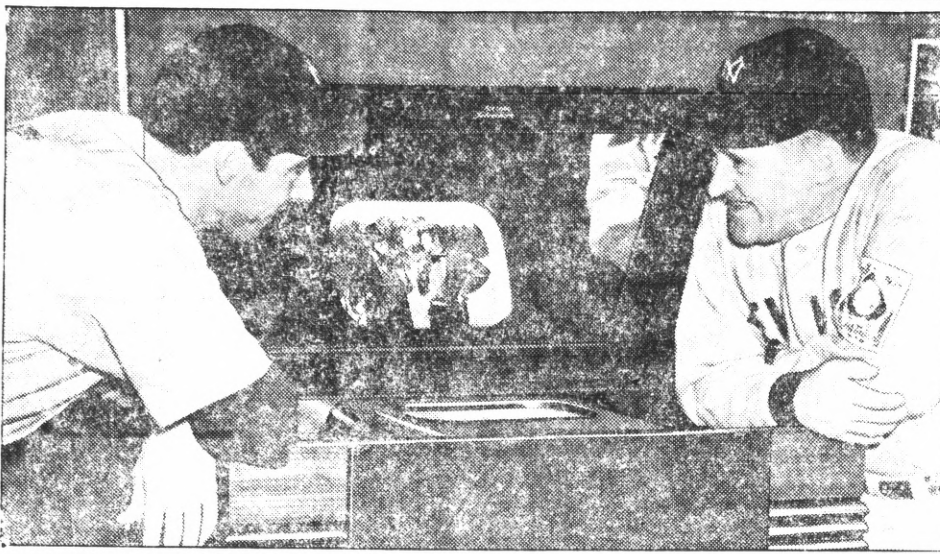

This writer is neither an officer nor a member of the Associated Farmers and has no intention of presenting a brief for the organization. That responsibility must rest with its own officers and membership.

But as the executive secretary of the Agricultural Council of California, which is composed of the State's major farm cooperatives, with more than 70,000 farmer members, the writer of this column does have a vital interest in any inquiry bearing on California's critical and complicated farm labor problem.

It is not a one-sided problem and it is to be hoped that the investigation about to be begun will not be a one-sided investigation.

Unfortunately, the very definitely colored and one-sided news reports the activities and records of the As-

some months ago after the LaFollette investigators had made their preliminary inquiry have undoubtedly caused a large percentage of California farmers to question the impartiality and fairness of the investigating committee.

In all frankness, the average California farmer today—as a result of the publication of grave charges against the Associated Farmers and the farming industry in California, without either the Associated Farmers or the industry as a whole being granted any opportunity to disprove the charges—is probably of the opinion that the LaFollette committee is a pro-labor committee, prepared to pre-judge the case.

California farmers may be entirely wrong in that assumption. It is to be hoped that they are. For we have had enough of class hatred and class warfare in California, and it is high time that men in position of high responsibility should use their influence to bring peace on the labor front and to assist in fairness for everyone concerned in labor disputes.

This writer assumes that the LaFollette committee will crack down on attempts of labor leaders to rule with an iron hand and to violate the civil liberties of farmers—with the same vigor that it will proceed against any violation of civil liberties by farmers or other employees.

And if the committee follows that policy from the start of its investigation—demonstrating that it wants both sides of the story and that it recognizes that farmers have just as much right to expect protection of their farms and their crops as labor leaders have to demand decent working conditions and fair wage scales—the committee will quickly win the confidence and wholehearted cooperation of California agriculture.

The Associated Farmers of California, in a recent statement, threw down the gauntlet with the declaration:

"We demand that the defense of civil liberties include the civil liberties and rights of the farmers, merchants, employees and every member of the community alike."

They have a right to make that demand—for that demand is rooted

in the principles of a democracy. When farm trucks are over-turned on their way to market, when strikes are called at peak harvest seasons and crops rot in the fields, when labor leaders demand wage increases that farmers can't pay without being plunged into bankruptcy, when goon squads are sent into farming areas by city labor czars to intimidate and terrorize, then the LaFollette committee might well do something to protect the liberties and rights of farmers and the general public. And if it does so, California farmers are willing to stand any investigation it may order.

to vote forty days, prior to the date of election. Residence, as prescribed in that section of the Constitution, means a person's fixed place of abode. As stated in Section 52 of the Political Code, which prescribes the rules for determining the place of residence, if it is the place where one remains when not called elsewhere for labor or other special or temporary purpose, and to which he returns in seasons of repose. Residence can be changed only by the union of act and intent. It is stated in Section 1239 of the Political Code, which prescribes the rules to be applied by a board of election in determining the place of residence of any person, that that place must be considered and held to be the residence of a person in which his habitation is fixed, and to which, when he is absent he has the intention of returning; that a person must not be held to have gained or lost residence of his presence or absence from a place while employed in service of the United States, or in this state, nor while engaged in navigation nor while a student of any institution of learning, nor while kept in an almshouse, asylum or prison, and that a person must not be considered to have gained a residence in any precinct into which he comes for temporary purposes, unless without the intention of making such precinct his home.

"The view of these provisions is that a person who is a resident of a county and precinct in this state, and such county may be the county in which such person has otherwise acquired a residence, such as the fact that such person is entitled to register and vote in such precinct in which his residence is actually located. In such case, and if so registered he is privileged to vote on the day of election through the process of absentee voter voting even though he is temporarily located in some such camp whether in that county of his residence or some other county in this state. But he is not entitled to register or vote merely because of his presence in such camp.

"When a person applies to a County Clerk for the purpose of

registering it is within the province of the County Clerk to ascertain upon the facts presented to him by such person whether he is or is not a resident of such county. In determining whether the person is a resident entitled to be registered, the County Clerk should observe the rules prescribed by law for determining such residence, and if under those rules, and in the light of the facts disclosed, it appears that such person, he is not to be deemed in law a resident of such county or of any precinct thereof, and for the required period of time, then the County Clerk is justified in refusing to register him."

The LETTER BOX

TIME PEOPLE AWAKENED
TO "HAM AND EGGS,"
SAYS READER

It is time the people of this state awakened to the nefarious scheme known as "Ham and Eggs" which its sponsors are trying to put over by intimidation and misrepresentation. As to intimidation, they are now passing printed slips to merchants stating "If you want to save your bacon, vote yes on Ham and Eggs." Then they are using the threat of boycott to prevent merchants from opposing this scheme.

Now, no sensible merchant need be afraid of their boycott. Take Placerville for example and consider three kinds of business; grocery, clothing and gasoline. There are approximately ten firms in each of these lines of business.

It is estimated that the number of pensioners will be approximately 500,000 or less than 10 per cent of the population. They cannot be expected to do over 10 per cent of the business of the state. Divide this among ten men and we have one per cent to each man. Now is any sensible merchant going to give valuable merchandise in exchange for a worthless piece of paper when it reaches his hands and which can attain value only at the rate of two per cent a week just for fear he will lose one per cent of his business? I think not.

Rather he will prefer that his competitor, who might accept them, continue to do so and go "broke" as quickly as possible; thereby being removed from competition.

Whether this scheme goes through or not rests largely with the merchants. If they are intimidated and refuse to express their true feelings on the question the amendment will pass; but if they express themselves now and let it be known that they will not exchange merchandise for these warrants the amendment will lose so definitely that it will never appear again.

Chilled and Jellied Soups

EVERY summer more and more of us decide that we like chilled soups and jellied soups very much indeed. And they are delicious, served spicily seasoned and accompanied by cheese straws or crackers. In planning a meal, however, that includes a chilled or jellied soup, it is wise to have the following course a hot one—for we all need a little hot food at every meal.

Modern jellied soups are simplicity itself, for many canned soups actually jell in the can in the refrigerator. For instance, condensed consommé, condensed consommé Madrilène and condensed consommé Printanier left in the refrigerator will jell in about four hours. When meal-time arrives you just open them and serve in cups with a wedge of lemon on the side.

Then there are the chilled liquid soups. Crème Vichyssoise is perhaps the most popular of these, probably because it is nothing but a chilled version of that old family favorite, potato soup.

Crème Vichyssoise
2 tablespoons butter
1½ cups leeks, sliced
½ cup onions, sliced
1 quart potatoes, sliced
1 pint water
2 cans condensed chicken soup
1 pint cream
1 pint milk
½ teaspoon salt
½ teaspoon pepper

Cook the onions and leeks in the melted butter until soft, but not brown. Then add the sliced potatoes and water and cook for 20-30 minutes. Heat the chicken soup and add to the potatoes and leeks and continue cooking for about 10 minutes. Force through a fine sieve. Season with salt and pepper. Heat milk and cream and add to the puree. If the mixture is not real smooth put through a fine sieve again. Makes about two quarts of soup. Serve chilled. Ten minutes before serving mix chopped mint leaves into the chilled soup. Delicious! Watercress or parsley chopped fine are two other choices as garnishes for this soup.

LOS ANGELES YOUTH ADMITS
MURDER OF ACTRESS
IN FEBRUARY

LOS ANGELES, (UP)—Deputy po-
lice Chief Homer Cross today an-
nounced that De Witt Clinton
Cook, 20-year-old typesetter had
confessed the City College campus
slaying last February of Anya So-
syeva, former Ziegfeld Follies danc-
er, and two other recent attacks up-
on women.

Cross said Cook, who was appre-
hended early today after he was
seen jumping from the window of
W. F. Warnock's home, also con-
fessed the bludgeon attacks upon
Delia Bogard, 17-year-old dancer,
and Myrtle Wagner, 17-year-old
housemaid.

When the youth was arrested he
had an 18-inch piece of 2x4 in his
possession. He wore tennis shoes
and carried several pairs of gloves
and a pocket knife.

After his apprehension, his wife,
Mrs. Lorraine Cook, and his mo-
ther, Mrs. Ruby Cook, were arrest-
ed on suspicion of grand theft.

STREAMLINER WRECKING
SUSPECT JAILED
AT SACRAMENTO

SACRAMENTO, (UP)—Milan Kos-
anovich, 58, former railroad work-
er, was held by police today for the
questioning in connection with the
wrecking of the Southern Pacific
Streamliner in Nevada of August 12.

Kosanovich was detained shortly
after his arrival from San Fran-
cisco yesterday. Leslie Cox, chief
of the police identification bureau,
said the man "obviously was a
mental case," having a delusion the
Southern Pacific Company is "hold-
ing out" \$1,000 which he claims the
Russian government sent him here
for his passage back to Russia.

Officers said his whereabouts
during the past month would be
thoroughly checked. He told police
he had been working in San Fran-
cisco during that time.

Around
Our Town

Mr. and Mrs. Max Baer returned
Thursday evening from an ex-
tended stay at their summer cottage
near Bijou. Mr. Baer reports he
feels much better after his rest. De-
spite being away from the city for
six weeks, Mr. Baer maintained his
Lions Club attendance by meeting
every week except one with the Car-
son City Lions.

Mrs. Gladys Akin and sons were
in town Tuesday from Gold Hill.
Henry Bacchi was a caller from
near Lotus on Tuesday.

Ralph Smyth, clerk of the board
of Indian Diggings school, was a
caller at the school superintend-
ent's office on Tuesday. Indian Dig-
gings school has recently purchased
new desks for the pupils.

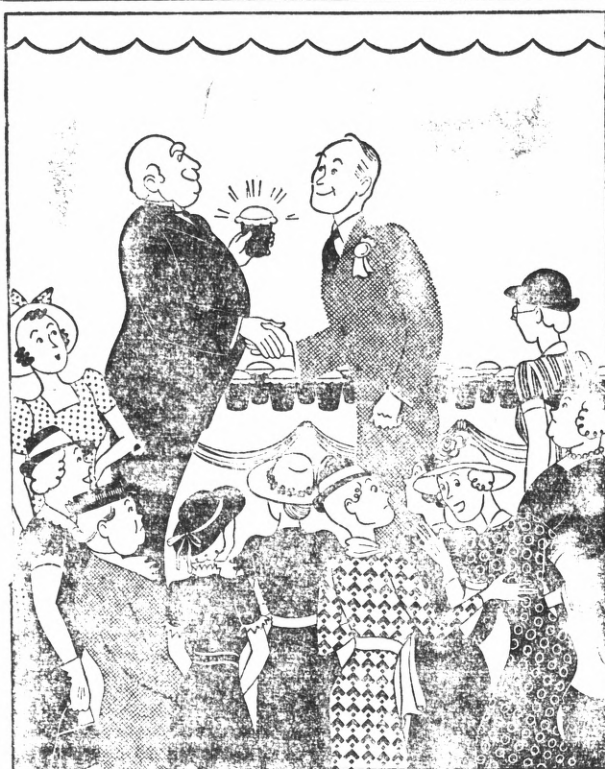

According to reports from Reno,
a license to wed was issued there
on August 25 to Leon R. Lucas, 33,
and Sandra Ann Crowell, 21, both
of whom gave Placerville as their
home city.

Robert Neal, agent for Pacific
Greyhound Lines in Reno, was here
over Sunday visiting with his wife
and daughter.

Connie Mack To Retire,

PHILADELPHIA, (UP)—Connie
Mack, 76 year old pilot of the Phila-
delphia Athletics, today planned

life and devote his remaining years
exclusively to his baseball activities.
He said that speeches, pub-
lic dinners and receptions were for
him a thing of the past.

Homemade Jelly Wins Prize for Farmer!

LAST year Ervin Swinehart, of
Exeland, Wisconsin, received a
premium from the Sawyer County
Agricultural Fair for his home-
made chokecherry jelly.

Mr. Swinehart, who farms 240
acres, admits that his hobby is help-
ing children. As a school officer and
4-H Club leader, he believes that no
leader can be a good leader without
doing the work himself—and when
it comes to lessons in jellymaking,
this prize winner evidently knows
what he's talking about. Mr. Swine-
hart's cooking ability "runs in the
family," too—for when his daughter,
Sylvia, was only 12 years old she
won first place in the International
Contest.

Any man who wants to make a
batch of homemade jellies would do
well to use a champion recipe like
this one. He'll have a perfect prod-
uct every time—whether or not he
enters it at the fair to compete for
a prize like Mr. Swinehart's!

FRESH MINT JELLY

(Makes about 5 medium glasses)
1 cup spearmint leaves and stems,
packed
2 1/2 cups sugar
1 1/2 cups apple vinegar
1 cup water
1 cup lemon juice

Wash spearmint. Do not remove
the leaves from stems.
Measure into quart saucepan
and press with wooden potato
masher or press. Measure sugar,
vinegar and water into saucepan,
and mix with mint.

Bring to a boil over hottest fire
while minture is coming to a boil
add cold sugar to give desired shade.
Use coloring which fruit acids do
not fade. As soon as mixture boils
add bottled fruit pectin, stirring
constantly. Then bring to a full
rolling boil and boil hard 12 minute.
Remove from fire and skim. To
remove all trace of mint leaves
pour hot jelly through fine sieve
into glass. Pour into hot jelly at
once.

But the hours passed without any

It had been thought that the

LIONS TOLD OF
LUMBERING

(Continued from page one)

the box lumber cut is handled by
three factories in the county; the
balance being shipped to factories
outside the county.

Mr. Berry mentioned the hazard
of fire and the need for the control
of insect pests as two "worries" of
the lumbering industry and spoke
of the efforts to control the White
Pine Blister rust, which was first
noted on the west coast in British
Columbia about fifteen years ago,
and which is now spread as far
south as the Feather River.

He said the principal private
holders of timber land are glad to
have recreationists on their prop-
erty and welcome public use of the
land when the recreationists ob-
serve the regulations which have
been established to prevent the
starting of fires.

Mr. and Mrs. H. E. Fackrell and
